To whom it my concern

26. September 2017

DIN ISO 9001 Certification

Thanks for your demand on our Certification.

Within Käserei Champignon Hofmeister GmbH & Co. KG we took the decision no longer being certified against DIN EN ISO 9001. This will be valid for all plants and the head office.

We have used the following reasons for our decision-making:

- IFS and BRC Certification is more and more the standard certification
- It is more important because of unannounced auditing
- A lot of element of ISO 9001 are now also implemented in IFS or BRC standard  
There are many overlaps with the same content, but twice audits
- Since now our customers only demand on one valid standard certification within GFSI accepted standard.

According to this decision, our DIN ISO 9001 certificates will expire in November 2017.  
We hope you can understand our argumentation and thank you in advance.

Kind regards,

i.V. Angelika Schlößer  
Qualitymanagement
